A PERSONAL NOTE

Imagine two 23-year-old girls flying from Amsterdam to Bali in 2009, thrilled and ready to spend one year in the tropics. Swapping city life for a change of pace, an escape from chilly Dutch winters, and to explore their roots in Indonesia and the Moluccan Islands. You can guess what happened. Seventeen years later we're still here in Bali, writing to you!

Bali stole our hearts. Just like it did or will probably steal yours. We fell deeply in love with the island, the beautiful people, culture, smiles, the food, the ocean, surfing, swaying coconut trees, sun-kissed days, breath-taking sunsets and infinite creative island energy.

On that first flight to Bali we decided to create a blog and share everything *we like* about Bali (2009, yes it was pre-Insta era!) And just like that, Welikebali was born. Sharing our love for island life by capturing our Bali daily life and adventures, exploring beaches, neighboring islands, discovering new hotspots, restaurants and shops by amazing Bali-based designers. Anything cool happening, welikebali is there.

"To us, Bali means a lifestyle of creativity, love, freedom, humbleness, joy, health & counting your blessings every single day."

In 2016 we created our first issue of the Bali Island Guide and fast forward to today this brand new issue is here for you, completely renewed and here to make your Bali holiday dreams come true!

Are you ready for an unforgettable vacation on one of the most beautiful islands in the world? Get inspired by our Bali Travel Guide! Filled with all the practical tips to prepare for your holiday (from visa to area info and driver numbers to a medical address list!) and our 500+ favorite places to eat and sleep, beaches, surf or take surf lessons, tropical escapes, shops, spas, gyms, pilates studios, tips for surrounding Nusa- and Gili Islands, Lombok and more. Every single place in this guide is personally visited and photographed. No more endless scrolling on Instagram and getting lost online. No Bali FOMO for you!

Consider us your personal insider guides, here to help you roam Bali in a way knowing you won't miss out on the best of the island. Hopefully it 1. saves you a lot of time and 2. makes your Bali journey as epic as possible! And you can focus on fully soaking up the good life: sip coconuts, drink good coffees, surf the waves of your life, go on adventures, work on your pool hanging skills, eat your way through the island and get that healthy Bali body (and not the infamous Bali belly).

We wish for you to travel with a conscious heart. You'll find our tips to explore with love and respect for the local culture and environment, as we all want the magic of Bali to remain and local communities supported.

So let's move on and let's go! Have an amazing time on the island. Make sure to share your travels with us by tagging @welikebali in your photos and stories so we can follow along your Bali adventures.

Terima kasih, thank you. Enjoy your Bali Guide and sea you in Bali!

THINGS TO KNOW *BEFORE YOU GO*

Going in prepared makes the journey smoother and the experience richer. Here are our notes for your journey.

BEFORE YOU GO

BEST TIME TO TRAVEL

- March to October. November to February, it's officially rainy season. - Note: rainy season is not a bad time to travel to Bali! Just be prepared for some tropical rain showers.
- For surf: 365 days a year but best in dry season

WEATHER

Bali has a tropical climate characterized by warm temperatures and high humidity (read: sweating!) throughout the year. The average temperature in Bali ranges from 26°C to 31°C (79°F to 88°F). However, it will feel hotter than the actual temperature. It remains relatively consistent, with only slight variations between seasons. After rainy season March through April it can get very hot while towards the summer months June, July, August and September it cools down in the evenings and you'll want to wear a light jacket when driving a motorbike. If you're visiting the North of Bali or mountain area's you'll also want to pack slightly warmer clothes then when visiting the coastal areas.

TRAVEL INSURANCE

Essential. Make sure you have good coverage before you fly, including for activities like surfing or hiking if relevant to your trip.

ARRIVING IN BALI

Getting the entry requirements right before you leave home takes less than an hour total and saves you a lot of time at the airport.

or always-current information and step-by-step instructions for each form, check our regularly updated online guide at: welikebali.com/blogs/stories/bali-arrival-guide

PASSPORT

First things first. Your passport must be valid for at least 6 months from the date you enter Indonesia, and it should have at least two blank pages for the stamp. Indonesian immigration is also strict about the condition of your passport — entry can be refused if your passport shows damage, including water damage, or even minor rips or tears to the pages.

VISA

Most nationalities visiting Bali for tourism need a Visa on Arrival (VOA). It costs IDR 500,000 per person, approximately USD 35 or EUR 30 and is valid for 30 days from entry. It can be extended once for another 30 days at a local immigration office and/or with a visa agent.

BEFORE YOU GO

Apply online before you fly through the official Indonesian immigration website before departure. Once approved you'll receive a QR code confirmation by email. Download it, screenshot it and have it ready on your phone before you land. Before you board: airlines may ask to see proof of an onward or return flight. Have your booking confirmation accessible.

STAYING LONGER?

You can extend your VOA once for an additional 30 days, all extensions require a visit to the local immigration office in person. The process is manageable but takes time. We recommend working with a trusted local visa agent rather than navigating it alone. Your accommodation can almost always point you to someone reliable.

For stays up to 60 days total, extend your VOA before your first 30 days expire. For stays beyond 60 days, you'll need a different visa type: the B211A Tourist Visa covers stays up to 180 days and must be arranged with a local agent, ideally before or shortly after arrival. We can recommend Bali Solve for your tourist- and business visa support.

THE TOURIST TAX

All international visitors to Bali pay a Tourism Levy of IDR 150,000 per person (approx USD 10 or EUR 9). This is separate from your visa fee and is required for every visit. Pay it online before you fly at the official Love Bali government portal. You'll receive a QR code to show at the airport.

ALL INDONESIA ARRIVAL CARD

Think of this as your digital entry declaration, it's mandatory for every traveller entering Bali (including children). Complete it online within 72 hours before your flight on: allindonesia.imigrasi.go.id. It takes about five minutes. Once done, you'll receive a QR code, screenshot it and save somewhere accessible without WiFi.

VIP FAST TRACK

If you'd rather skip the whole process, a VIP Fast Track service is worth it. A representative meets you as you step off the plane, guides you through immigration, handles all arrival paperwork upfront, skips lines and helps collect your luggage. Particularly good if you're travelling with young children or arriving on a night flight. Costs approximately USD 35 per person. Book at least a week in advance via WhatsApp: +62 821-4720-8677 (mention Welikebali!).

BEFORE YOU GO

PICKUP & TRANSPORT

Book your transfer before you land. After hours of flying, a driver with a sign and a smile waiting at arrivals is one of the best ways to start a Bali trip. Ask your accommodation to arrange one, most hotels and villas offer this as a standard service. If you're organizing it independently, confirm the price and meeting point by WhatsApp a few days before arrival, and have their number saved and accessible on your phone.

Our trusted drivers:

Pak Made: +6281285321860

Pak Mudi: +62 881-4624-112

Wayan Dedy: +6281236196622

Pak Made @debali_driver +6181803588751

CASH

Don't exchange money at the airport, the rates aren't ideal. Make your first withdrawal from an ATM once you're in Bali, or visit a reputable exchange office in town. Bring or take out a small amount of USD or EUR in cash for your first transfer if needed, in case you arrive and need to pay for something immediately.

HOW TO GET AROUND

Bali is easy to navigate once you know your options. Transport is affordable, widely available, and most of it can be arranged directly from your accommodation or phone.

By Motorbike

The classic way to explore Bali. Rental shops are everywhere, and most accommodations can arrange one for you directly. A standard motorbike runs approximately EUR 5-15 per day, an nMax or electric Niu around EUR 10 per day. Helmets are included (or simply buy yourself a new one at one of the many local helmet shops on the main roads). Always wear yours, even on short rides.

If you'd rather not drive yourself, hop on a Gojek motorbike taxi instead. Order one on the app and you're moving in minutes, faster than a car in traffic.

BEFORE YOU GO

By Car / Private Driver

A comfortable way to get around, especially for longer distances, switching accommodations, day trips or traveling with luggage and kids.

Three easy ways to arrange it:
Book through your accommodation; there's always a driver available.
Order a GoCar on the Gojek app, great for shorter trips.
Or get a private driver for the day, a familiar face who knows the island and waits for you wherever you go. Simply contact our trusted drivers and check for their half or full day fee.

By Bicycle

Don't we all love bicycling! Although not recommended as your main way of getting around (it's hot, roads are busy and distances are longer than they look), but for the quieter areas like Sidemen, East Bali and outer Ubud, cycling is wonderful. Ask your accommodation to arrange a bike, or join a guided bicycle tour. Tip: book yours at Toko Travel!

By Foot

If you love to walk, choose your accommodation well in a neighborhood that's easy walkable or close to the beach and your favorite spots. Or plan nature hikes and easy to walk trails like the Campuhan Ridge Walk in Ubud.

By Boat

Heading to the Gilis or Nusa Islands? Fast boats run regular departures from several points along the coast. Don't worry about luggage, suitcases go on board too. You'll find our recommended companies and booking details in the *Surrounding Islands* chapter.

BEFORE YOU GO

By plane

Exploring more of Indonesia? Domestic flights are easy to take and even on the day itself you can book a ticket. Lombok, Sumba, Sumbawa, Java, all a short flight away. Book online with a credit card and always check in online before departure. A local travel agent can handle bookings and logistics for you.

Tip: Whatsapp Nyoman Travel Agent on +62 812-3909-754

GOJEK

Download this app before you arrive. Order motorbike taxis, cars, food from any restaurant, groceries and more, all from your phone!

Gojek!

It is one of the most useful things on the island.

Grab is a good alternative. Always tip your driver generously!

PHONE & WIFI

Bali is well-connected. Most hotels, villas and cafés have WiFi and if you're travelling with a laptop, you'll have no shortage of good places to jump online.

For mobile data, keeping your phone connected at all times makes life in Bali easier; navigating Google Maps, ordering Gojek, staying in touch with your driver or booking a table at a restaurant. Buy a local SIM card at any small phone shop, bring your passport and they'll set it up for you. Telkomsel is a reliable provider on the island. *eSIM* is worth considering if you want to land already connected. Install a local data plan digitally before you leave home, your regular SIM stays active alongside it for calls and WhatsApp.

WHATSAPP

WhatsApp is how everything gets done. Hotels, restaurants, drivers, surf schools, spas, villa owners, visa agents, if you need to reach someone, book something or confirm anything, it happens here.

BEFORE YOU GO

BALI BELLY

A stomach bug in Bali is never fun, but it can happen, even when you're careful. Think food poisoning with a tropical twist: cramps, nausea, vomiting, diarrhoea, sometimes fever and usually a few slow days.

When in Bali make sure to wash your hands often, Brush your teeth with filtered water. Drink plenty of coconut water or electrolyte drinks.

THE BELLY SOLUTION

The best thing you can do to avoid as much as possible? Prepare your gut before you travel and know what to do if it hits. We recommend The Belly Solution as your pre-trip essential (Instagram @thebellysolution)

@thebellysolution

Their flagship product, Probiotic + Prebiotic + Electrolyte Rehydration Formula, is an all-in-one oral powder created to support prevention, treatment and post-illness recovery from Bali Belly and other travel-related tummy troubles.

It contains *Saccharomyces Boulardii* 10 billion CFU as the probiotic, plus PHGG as the prebiotic, combined with electrolytes to support hydration. You simply take it with food or water, making it easy to bring along in your suitcase or day bag.

It's also shelf-stable in hot climates, which makes it ideal for Bali and other higher-risk travel destinations. Suitable for adults and children in accordance with the directions, so it's a smart, family-friendly travel essential too.

You can order it online via thebellysolution.com.au before your trip and check their website for where to shop instore.

If you do catch it: rest, hydrate, use The Belly Solution as directed and be patient. It passes. In case fever doesn't go away after a few days, contact a doctor (contacts added in the next pages).

BEFORE YOU GO

SAFETY

Always wear a helmet, even on short rides.

Keep your bag worn close to your body, not dangling from one shoulder.

Be mindful of your phone on the street and on the back of a bike. Bag and phone snatches do happen.

After dark, stick to main roads when walking, or take a Gojek back rather than walking alone.

Place your bag under the seat of your scooter when driving (never in the front basket).

CLINICS & HOSPITALS

We hope you never need this page. But having it means you're prepared, and in Bali, a little preparation goes a long way. The island has good medical facilities, particularly in the main tourist areas. Save the numbers in your phone before you arrive, not when you need them.

The main emergency number in Bali is 112, which functions similarly to 911 in the US.

Siloam Hospital

BEFORE YOU GO

SUNSCREEN

Use sunscreen; the sun in Bali can be intense. That said, the waters around Bali and its surrounding islands are some of the most beautiful in the world. Help keep them that way. Many common sunscreen formulas contain chemicals that are harmful to coral reefs and marine life. Look for mineral sunscreens made with non-nano zinc oxide instead. Most surf shops and health stores across Bali carry reef-safe options, so if you forget to bring one from home, you'll find what you need easily once you arrive. For surfing, zinc is your best friend anyway!

MOSQUITOS

Mosquitoes are part of life in Bali, but with a little preparation, they're very manageable. Most bites are nothing more than itchy. However, it's worth knowing that mosquitoes in Bali can carry dengue fever, Zika and chikungunya. Symptoms are often mild but can occasionally be more serious, so it pays to take basic precautions. Mosquitoes are active day and night, but are most intense around sunrise and sunset and more prevalent during and around rainy season (October through March) and during the seasonal transitions in April, May and November. If you're heading into the jungle, rice fields or waterfalls, bring extra spray.

A few simple habits go a long way: use a good repellent every day, not just in the evenings. Cover arms and legs with light clothing at dusk. If your accommodation has air conditioning and doors that close properly, you'll notice far fewer insects, worth keeping in mind when booking, especially with young children.

For families: bring an anti-itch cream or pure aloe vera for bites. DEET-free repellent spray, mosquito repellent wristbands and citronella stickers are all worth packing. If a bite swells up more than expected, it's common, and it settles down within a few days. If you develop a fever, joint pain, or feel suddenly unwell, see a doctor promptly. Dengue in particular is worth catching early.

LAUNDRY & PACKING

Pack light. Seriously. Laundry in Bali is inexpensive, easy and available in every neighborhood, often just a few doors from where you're staying or at the accommodation itself. Drop your clothes off, collect them clean and folded the next day. Need it faster? Ask for express and it's back the same day. Packing light also means leaving room in your bag for everything you'll want to bring home, and trust us, you will want to ahop in Bali!

Any other specific questions or anything we haven't covered? Contact us on Instagram @welikebali or email us. We're here to make sure you're having an amazing time in Bali!

BALI LIFE

Bali is a magical place. Small enough to feel intimate, rich enough in culture and landscape that you could spend years exploring it and still find something new (we still do even after 17 years!). Whether you're here for two weeks or two months, what you discover here tends to stay with you long after you leave.

Yes, the Instagram posts are real, the stunning rice terraces, the temple gates draped in flowers, the clifftop restaurants.. Bali runs deeper than the modern-day aesthetics. It's one of 17,560 islands in the Indonesian archipelago, a small dot in the Indian Ocean that became one of the most visited destinations on earth. What makes Bali so special is not just beauty. *It's the people, and it's that feeling.* When you're here, you'll know exactly what we're talking about.

DAILY RITUALS

The first thing you'll notice when you arrive is the smell of incense. Every morning, Balinese Hindus place small woven banana leaf baskets, called canang (pronounced 'tjanang'), filled with flowers, rice, and offerings in front of their homes, shops and temples. This daily ritual is not a tourist attraction. It's a living, breathing practice of gratitude and prayer. Step around them, never over them.

Hinduism is woven into everything here. Ceremonies, processions, and temple celebrations happen regularly, for full moons, new teeth, harvests and marriages. If you're invited to attend one, go. There is no greater window into Balinese life.

TEMPLES

Bali is known as the Island of the Gods and the temples make that title feel earned. There are thousands across the island: at the center of every village, in the corner of every home, carved into cliffsides above the sea. When you visit, dress respectfully. Bring a sarong to wrap around your waist. Arrive early to avoid the crowds and to experience them as they were meant to be: quiet, fragrant and alive.

THE BALINESE CALANDER

The Balinese calendar is full of ceremonies. Nyepi (the Balinese New Year) is unlike anything you will experience anywhere else in the world. For 24 hours, the entire island goes silent. No flights. No vehicles. No electricity. No noise. The streets are empty. It is the most peaceful day of the year, and a profound reminder of what stillness actually feels like. The night before Nyepi, the Ogoh-Ogoh parade fills the streets, in a Hindu ritual to purify the earth before the day of silence begins.

Canang (offering basket)

BALI LIFE

THE BALINESE PEOPLE

Warm, curious and deeply proud of their culture, the Balinese are what make this island truly special. Within your travel plans, wander off the tourist trail and open yourself up to conversations and spontaneous detours.

A fun thing to know: many Balinese share the same names. The first child is always Wayan or Putu, the second Made or Kadek, the third Komang or Nyoman, and the fourth Ketut, regardless of gender. Ask someone their name and you might already know it before they answer. What will your Balinese name be?

TRAVEL WITH LOVE

Bali is extraordinary. It is also under pressure. Millions of visitors pass through each year and the island, its rivers, beaches, roads and communities bears the weight of that. Plastic pollution is visible, especially in rainy season and tourism has reshaped much of what you see. But Bali's people and its land are resilient and how you show up here matters.

The idea is simple: leave Bali better than you found it. Some ideas:

- Carry a reusable water bottle. Every month, an estimated 30 million plastic water bottles are sold on this island. Fill yours at restaurants and stays, filtered water is widely available.
- Bring your own bag. Say no to plastic bags and straws wherever you can.
- Join a beach clean-up. Organizations like Sungai Watch run regular clean-ups.
- Choose local. Book local drivers, eat at warungs, buy from Balinese makers. Every rupiah spent locally goes further than you think.
- That said: tip: for your driver, your waiter, your housekeeper, your guide.

And above all: respect the Balinese people and their culture. Always.

BALI LIFE

SELAMAT MAKAN!

If you're a foodie like us, you're going to be the happiest. While the island is full of stylish cafes and vegan spots, we'll always nudge you toward the Indonesian kitchen first. Here are a few dishes not to miss: (which one are your favorites?)

Nasi campur: meaning 'mixed rice', the ultimate Balinese plate. A scoop of white, yellow or brown rice surrounded by small portions of what the warung is cooking that day; tempeh, tofu, fish, rendang, sambal, vegetables (don't forget the *kentang goreng* and *djagung bakwan*!) '. Every region in Indonesia has its own version and specialties

Nasi & bami goreng: nothing better than a good homecooked meal of nasi or bami goreng, usually everywhere you go a good choice!

Dadar gulung: pandan pancakes with brown sugar (gula djawa) and coconut.

Klepon: little green sticky rice balls filled with palm sugar, rolled in coconut flakes. Thank us later.

Gado gado: our daily favorite! Fresh vegetables, with potatoes or lontong (white sticky rice), peanut sauce and fried onions.

Pisang goreng: fried banana (having it for dessert? Add some vanilla ice cream) Enjoy!

THINGS TO DO WHEN IT RAINS

Rain in Bali doesn't mean the day is cancelled. It just means it's time for a softer, slower kind of island day (which are actually also our favorite!)

OVERVIEW OF *BALI*

*Bali...*Where magic happens, smiles warm your heart and the sweet smell of incense awakens your senses. Get ready for the island having so much to hold for you! From the sunny and salty life down South, till enchanting mountains up North and lush green jungle and endless coconut tree fields in the East to buzzing island life on the West Coast. Each area has different sights and unique surroundings. Let's have a look at the areas in Bali and save your favorites to visit!

Bali

Indonesia

CANGGU

If Bali has a heartbeat, Canggu is where you feel it most. It's where surfers, creatives, families, food lovers and people who just wanted a change of scenery all ended up (and then never quite left). It's the kind of place that's easy to understand once you're in it: one long stretch of black sand beach, restaurants, surf schools, wellness hubs, connected neighborhood to neighborhood. It has a vibe that's hard to find anywhere else, and once it gets you, it gets you!

CANGGU NEIGHBORHOODS

Times Beach warung

Batu Bolong & Echo Beach

The heart of it all. Batu Bolong is where you come to eat well, surf often, and stay out past sunset. The restaurants here are some of the best on the island. The beach is the perfect place to plant yourself with a coconut and watch the lineup. Echo Beach draws the more experienced surfers and has some of the most beautiful evening light in Bali, while at Batu Bolong you'll take your first surf lesson. All in between: design villas, boutique guesthouses, pilates classes and some very good coffee.

Berawa

The connector between Canggu and Seminyak. Berawa has its own strip of beach clubs, cafes and restaurants, with a mix of families and friends who are looking to have a good time. It's also the area that gets the most traffic in high season, the famous shortcut can slow to a crawl. But once you're in it, you can move easily between Seminyak and Canggu and get best of both worlds.

Finns VIP Beach Club

CANGGU NEIGHBORHOODS

Pererenan

A few minutes north of the Canggu center bubble, Pererenan is having its moment. The main road is developing fast, and is now the hottest and happening area, with boutique stores, creative spaces, excellent restaurants, cool cafés (and our very own Welikebali Store, come visit!)

All within the soul of the area, black sand beach and local life. Walk along the shore and you'll reach Echo Beach, stay for sunset..

Seseh

Go a little further north and everything gets quieter. Seseh feels like Canggu ten years ago: rice terraces still in view, roads wide enough to breathe, neighborhood cafes where the barista knows your order. It's where expats go when they want to be near the action but no longer in it. Beautiful villas, fewer crowds and the kind of morning stillness that reminds you why you came to Bali in the first place. Get there before everyone else does.

SEMINYAK & UMALAS

Seminyak is where Bali's beach holiday reaches its most polished form. Wide stretches of sand, beautiful resorts, a culinary scene that competes with anywhere in the world and sunsets you'll never forget. Legian Beach is a favorite; long, wide, good for walking, learning to surf (also for kids!), great for watching the sky turn orange while holding a coconut. Umalas sits behind all of it. A neighborhood popular for expats and families, with schools and facilities all within reach.

THE BUKIT (ULUWATU & BINGIN)

The Bukit is Bali's southern peninsula, a limestone plateau that drops dramatically into the Indian Ocean. It is stunning. Balangan, Dreamland, Bingin, Padang Padang, Bingin, Uluwatu, Nyang Nyang, Nusa Dua, Melasti, Pandawa; each beach has its own character, its own wave, its own crowd. This, with a collection of the best restaurants, cafes, wellness- and health hubs on the island makes the Bukit a non-negotiable. Come here to soak up the sunkissed island life!

UBUD

Ubud is where Bali breathes differently. It's the island's cultural center, home to artists, temples and rice terraces that ripple outside of the buzzing city center like something from a painting. Come here to hike to a waterfall, walk the Campuhan Ridge at golden hour, visit a holy spring, take a cooking class in someone's family kitchen or shop the famous markets. Ubud's food scene is extraordinary, from Indonesian classics to world-class vegan restaurants to popular local warungs.

NORTH, EAST, WEST & CENTRAL BALI

Fewer tourists, longer stretches of coconut palms and a coastline that is quiet and dramatic in equal measure. The Karangasem and Sidemen areas are where you come for slow days, Jatiluwih for UNESCO-listed rice terraces that stretch as far as you can see. Head west to Balian for surf, or go north through the mountains to Munduk and Bedugul where waterfalls appear around every bend. Continue to the northwest coast and you reach the untouched waters of Menjangan Island and the national park.

NUSA DUA & SANUR

On the southeast coast, Sanur is one of those places that rewards you for choosing comfort. Long, calm beaches for swimming, a shoreline path that stretches several kilometers, perfect for an early morning bicycle ride and a relaxed atmosphere. Sanur is wonderful for families, for anyone who loves to have everything within walking distance, and for a nice day trip if you're based further west. Our favorite: lunch with your feet in the sand at Tandjung Sari. It's also the main departure point for fast boats to the Nusa Islands and a perfect pitstop close to the airport.

SURROUNDING *ISLANDS*

The islands surrounding Bali will bring exciting adventures and unique experiences. If it fits your schedule, add one or more to your trip. Nusa Lembongan, Nusa Ceningan and Nusa Penida are the closest, just 30 minutes by fast boat. The Gili Islands are 90 minutes away; crystal clear water, no cars, pure tropical island life. Neighboring the Gilis, Lombok is having its moment. Wilder, less developed and drawing more travelers every year who are looking for that untouched feeling Bali had before the world found it. Further east, Sumba, Sumbawa and the Komodo Islands are worth every extra hour of travel!

500+ *INSIDER* *SPOTS & TIPS*

For each area we've selected our top picks for you — curated vacation homes, boutique stays, restaurants, cafés, warungs, beaches, surf spots, spas, workouts, island boutiques and the sights and activities worth your time. All personally tried, tested and loved. Save your favorites!

NUSA ISLANDS

How to get there

With the fastboat from Sanur you're within 40 minutes in paradise. We can recommend Rocky Fastcruises. Use code 'welikebali' for 15% off!

If you want to go to Nusa Penida, book your tickets with Maritu Express, Explore Nusa Penida or Toko Travel. Reserve your spot on the boat about a week or a few days book in advance. Included in the price is your round trip transfer from and to Sanur, you simply let them know where you want to be picked up. Rather do a private transfer? Book your boat with Morin Resort and captain Wayan and his crew will take excellent care of your trip.

Tip: become seasick easily or not a big fan of boats? Take a seat on the back rows - or take a nausea pill. Book the earliest boat in the morning, the ocean could get more rough by the end of the day. And you could double check if there's big swell, to consider rescheduling your trip to another day.

How to get around

The three islands can best be explored on a motorbike. Going from one beach to another, through local villages and along breathtaking views. Reserve a motorbike through your stay (or in Nusa Lembongan ask Kadek from Diva Motorbike (whatsapp on +62 812-3691-5493)). If you don't feel comfortable driving yourself, ask if someone who works at your hotel knows of someone who can drive you around. You then have a local tour guide right away, also fun!

Island tours & Daytrips

Planning a daytrip to one of the islands or do you wish to explore the islands with a local guide, we can recommend Island Time Bali @islandtime_bali and Explore Nusa Penida. So you are sure you won't miss out on the best of the islands.

EXPLORE

Nusa Lembongan

Jungut Batu Beach

The main beach, white sand and turquoise blue sea. Along the coastline, you'll find a fun strip of bars and restaurants, so you can easily spend the whole day there. Rent a SUP board or kayak, surf at the surf spots Shipwrecks, Lacerations or Playgrounds and watch the magical sunsets.

Surf Lessons Nusa Lembongan

If you want to learn how to surf in paradise, book a surf class with @thabu_surf_lessons (also for kids!)

Dream Beach

This beautiful white sandy beach is located in a small bay, between the rocks. The water crystal clear. It's one of our favorite beaches for chilling all day. Be careful with swimming, due to the waves and strong currents.

Sunset Beach

The beach in front of Sandy Bay Beach Club (a must for good food!) is called Sunset beach. And the name says it all, here you will experience the most beautiful sunset.

Mushroom Bay

White sand and clear turquoise water in a small bay. Enjoy snorkelling and paddleboarding all day long. You can also sleep on the beach at the huts of Hai Tide.

Coconut Beach

Well hidden, but not to miss out on! This tiny bay, often referred to as Song Lambung Beach is a quiet, scenic beach nestled between Jungutbatu and Tamarind Bay. Known for its calm waters, snorkeling, and surf access to Playgrounds. You can enjoy a morning coffee at Lago or tan all day at the sundeck.

Spring Spa

Jungutbatu | @spring_spa

Complete your island trip with a visit to Lembongan's most dreamy wellness sanctuary with incredible view over the ocean.

Nusa Ceningan

Secret Beach

Drive all the way south to Secret Beach. Where the rough coast-line shapes into a beautiful bay and not too many tourists are around. Also good for surf!

Blue Lagoon

The beach is not accessible but the view over this lagoon is incredible.

Nusa Penida

Adventure ahead

We'd say this island has by far the most incredible beaches and adventurous sceneries. Make sure to see Kelingking Beach, Broken Beach and Angel's Billabong, Crystal Bay and Atuh Beach. And to top of your adventure make sure to go snorkeling with Manta Rays.

Kelingking Beach

The most breathtaking view of Bali and the islands. Go early to avoid the crowds. Hike down the a path to the beach, so bring good walking shoes. Be careful at the edge.

Broken Beach & Angel's Billabong

After Kelingking, pay a visit to this natural phenomenon. After a short walk you arrive at Angel's Billabong. A natural 'swimming pool' between the rocks, caused by the waves.

Crystal Bay

Covered with swaying palm trees along a pearly white sandy beach, known for snorkeling and diving trips. On the left you can take a small walk to a vantage point that overlooks the bay.

Atuh Beach

Previously the beach was inaccessible, but stairs and a road were made. Be sure to visit the breathtaking Atuh Beach!

Snorkeling with Manta rays

A magical experience: take a snorkel tour anywhere on the island or book with one of our guides. Go early to avoid the crowds and usually enjoy a more calm sea. We recommend the private tours by @morinresort!

Diamond Beach

Diamond Beach has the most amazing view. It has a steep cliff, with steps down to the beach - so only do this when you're comfortable and there's no rain. In about 20 minutes you can hike down, advised to go on low tide. At the beach you will find a swing going over the ocean in between two palm trees. No swimming due to strong currents.

GILI ISLANDS & LOMBOK

LOMBOK

Escape to the magical island of Lombok, a true tropical gem nestled next to Bali. The perfect destination for travelers seeking an unforgettable adventure. With its pristine beaches, breathtaking landscapes, rich cultural heritage and less tourists and no traffic jams, Lombok has that perfect mix of relaxation and adventure that's exciting. Go for a minimum of 3 nights since there's lots to explore or to take the time to slow down and enjoy paradise. The warm hospitality and welcoming nature of the locals will make you and your family feel right at home.

How to get there

Take the fastboat from Padang Bai which will take about 2 to 3 hours (it passes the gili islands first) or fly from Bali domestic airport to Lombok within 40 minutes. Both perfect options since you'll be there within a few hours only! There's also a local ferry that you can take with the car, but it can take long because it's usually quite busy - it might take a full day of travel. Book your Eka Jaya fastboat ticket online - same as for your flight tickets. Or to book a domestic flight, contact our local travel agent: Mrs. Nyoman +62 812-3909-754

How to get around

Lombok's roads are incredibly stunning and the scenic routes along the coast, through coconut fields, local villages and mountain areas will leave you in awe. The only traffic you'll encounter are some cows or chickens. Hire a private driver, taxi or rent a motorbike at your accommodation - this last one is the most idyllic way to explore the island and drive to all the beaches nearby.
